Incomer in the Bonifatiuswerk in the Pauluskolleg (m/f/d)

As a Catholic relief organization for the faith, the Bonifatiuswerk of German Catholics has been supporting Catholics living in an extreme minority situation for over 170 years. As a work of solidarity, it not only promotes the transmission of faith, but also places of encounter and fellowship, as well as pastoral support for Christians living in extreme minority situations. With an annual sum of more than 11 million euros, in 2022 the relief organization supported almost 900 projects in the various support areas in Germany, Northern Europe and the Baltic States.

The Pauluskolleg is a meeting, living and learning place for students in the city of Paderborn. It is more than an ordinary student dormitory. Students studying at one of the city's three universities can apply for a room for the residential period of one year. Three focal points are part of this year in the community: personal development, social competence and the promotion of one's own spirituality. In addition to the living quarters, there are many places in the house that support and promote the aforementioned focuses, e.g. a dedicated house chapel, study rooms, a pub and a large dining hall.
